

## **"REVISED RULES NOW IN EFFECT":**

In late 2014, revisions to both the Act 312 Rules and General Rules became effective. The new rules are available on this webpage under the "MERC Guide, Rules & Statutes" link. Also, under this same link are summary charts that highlight many of the substantive changes in each rule set. (Note: Changes that merely update citations or rephrase prior language without altering the meaning or effect of the existing rule are not listed in the summary charts.) Please review both rule sets in their entirety to determine how any changes apply to your pending and future cases.

We at MERC/BER hope that you will find this readily available information useful. As always, you are welcome to contact us should you have questions.
